### Why in News

Recently, the **Cabinet Committee on Economic Affairs (CCEA)** has **cut the subsidy for non-urea fertilizers**.

That is about **3% lower** than the estimated expenditure on the **nutrient based subsidies in 2019-20**.

### Key Points

- **Reduced Prices:**
  - **Nitrogen (N) based fertilizers**- Reduced to ₹18.78 per kg from ₹18.90 per kg.
  - **Phosphorus (P) based fertilizers**- Reduced to ₹14.88 per kg from ₹15.21 per kg.
  - **Potash (K) based fertilizers**- Reduced to ₹10.11 per kg from ₹11.12 per kg.
  - **Sulphur (S) based fertilisers**- Reduced to ₹2.37 per kg from ₹3.56 per kg.
- The CCEA has also **approved the inclusion of ammonium phosphate [(NH<sub>4</sub>)<sub>3</sub>PO<sub>4</sub>]** (a complex fertiliser) under the **nutrient-based subsidy (NBS) scheme**.

### Nutrient Based Subsidy Scheme

- It is being **implemented from April 2010** by the **Department of Fertilizers, Ministry of Chemicals & Fertilizers**.
- Under NBS, a **fixed amount of subsidy decided on an annual basis**, is provided on each grade of subsidized **Phosphatic & Potassic (P&K) fertilizers, except for Urea**, based on the nutrient content present in them.

It is largely for **secondary nutrients** like **N, P, K and S** which are very important for crop growth and development..
- It aims to **ensure the availability of fertilizers to farmers at an affordable price**, as the retail prices of such non-urea fertilisers are decontrolled and set by manufacturers.
