

India-Africa Relations

 drishtias.com/printpdf/india-africa-relations-mind-map

Need to start delivering on the grou

Indian investments in Africa need to diversify towa
'broad' range and not remain restricted to traditio
sectors of investmer

Steps towards joint projects for the sustaina
development of the Afri

Ethnic, religious conflicts and
governance issues.

India's presence in Africa remains marginal limiting
its capabilities.

China's presence has grown in Africa resulting in Chinese
growing influence in the continent.

No coordinated Africa policy.

Trade - sectors like tourism, banking, telecommunications,
manufacturing and agriculture.

Security - deal with threats such as terrorism
and piracy.

Maritime Cooperation - development of blue
economy and renewable energy.

Food Security - similar challenges in regards to hunger
and under nutrition.

Address nation's food security
problem.

Opportunities for African farmers to
increase income, and generate
employment.
