- First of all, the release related to these examinations is issued by the commission, after that the process of filling the online application form starts. The detailed information related to the process of filling the form is given under the heading 'How to apply online?' under the 'Notification'.
- A detailed description of various aspects related to the said examination is given in the release. Therefore, it is beneficial to study it before filling the form.
- After the completion of the form filling process, the preliminary examination is usually conducted after 2 to 3 months.
- The preliminary examination is conducted on the same day at different centers of the state as decided by the commission.

The selected options related to the question are filled in an OMR sheet given by the commission. It is to be filled with black ball point pen.

- There is a provision of negative marking for wrong answers in this examination conducted by the UKPSC in which one-fourth ($1/4$) mark is deducted as penalty for each wrong answer.
 - If a candidate gives more than one answer to a question, then that answer will be treated as wrong, even if one of the given answers is the correct, even then the same penalty will be given for that question as above.
 - If a question is not attempted by the candidate, i.e. no answer is given by the candidate, then no penalty will be given for that question.

In the year 2014, the nature of the preliminary examination was changed by the commission, according to which the question paper of 'General Intelligence Test' (General Aptitude Test) was adopted instead of the optional subject (objective) asked in the second paper.

- At present, two compulsory papers ('General Studies' and 'General Intelligence Test' respectively) are asked in the Preliminary Examination, the examination of which is conducted on the same day in two different shifts in two hours duration.
