

New Species of Tree Frog

A new species of tree frog, discovered in West Bengal, has been named **Brown Blotched Bengal Tree Frog** (*Polypedates bengalensis*) due to a series of six to nine dark brown blotches present on its body. [//](#)

- It is a **mid-sized tree frog** and is the **26th species** under the **genus *Polypedates***.
 - *Polypedates* is a genus of tree frog found throughout South and Southeast Asia.
