Way Forward

- A reliable, timely and participative information system coupled with a robust and efficient data analytics framework is the key to successful implementation of any Government programme.
- In the arena of School Education & Literacy, guided by the enabling legislative framework of the [Right to Education](#), the [National Education Policy 2020](#) and visionary [Sustainable Development Goals \(SDGs\)](#), Government Schemes like [Samagra Shiksha \(SS\)](#), Mid-Day Meal (MDM) and similar such schemes by the States would deliver the desired result if they are monitored effectively.
- The framework of a real time data availability system (namely, UDISE+, Shagun, etc.) and an objective and holistic performance evaluation framework provided through the PGI would provide the right combination for effective implementation of policy in the School Education sector.
- A performance-based grant would provide the required incentive to the States and UTs to ensure their continuous and focused attention to this sector, which is crucial for overall growth and development of the country.
