

Faridabad Railway Station will be Redeveloped on the Lines of a World Class Station | Haryana | 16 Sep 2022

Why In News?

- On September 15, 2022, Union Minister of State for Power and Heavy Industries Krishan Pal Gurjar informed that Faridabad railway station has been selected to make Faridabad railway station a world-class railway station under the ambitious plan of redevelopment of railway stations of Indian Railways.

Key Points

- Union Minister of State for Power and Heavy Industries Krishan Pal Gurjar said that major upgradation works will be done for the convenience of railway passengers at this railway station through redevelopment works.
 - The total amount of the project is Rs 262 crore. Under the proposed scheme, iconic buildings will be built on both sides at Faridabad station. Along with this, there will be separate arrival and departure facilities like the airport at the railway station.
 - There will be multi-level car parking on both sides of the station. The 72-metre wide furnished space will be on either side of the railway station. Two foot-over-bridges of 12 meters wide will also be built here, so that barrier-free movement can be done.
 - Apart from this, other facilities including waiting room area, food court with more capacity and space will also be developed here.
 - The new proposal also provides for facility for local transport in the railway station premises itself. Along with this, the railway station building will be redeveloped on the lines of smart and green building.
