

# **76th Annual World Health Assembly**

For Prelims: World Health Organization, World Health Assembly, G20, Ayushman Bharat
For Mains: India's participation in the World Health Assembly, World Health Organisation functioning,
Significance of India's contributions in medical value travel

# Why in News?

Recently, the **76**<sup>th</sup> annual <u>World Health Assembly</u> was held at <u>World Health Organization (WHO)</u> Headquarters(HQ), Geneva, **Switzerland**, from **21**<sup>st</sup> to **30**<sup>th</sup> May **2023**.

- The theme for 2023 is "WHO at 75: Saving lives, driving health for all."
- The participation of Prime Minister Narendra Modi and Union Health Minister in the 76<sup>th</sup> World Health Assembly highlighted India's commitment to global health.
- Taiwan was excluded from the WHO assembly due to opposition from China and Pakistan.

## What is the World Health Assembly?

- About:
  - The World Health Assembly (WHA) is WHO's decision-making body attended by delegations from all of WHO's member states.
  - It is held yearly at the HQ of WHO, i.e., Geneva, Switzerland.
- Functions of WHA:
  - Deciding on Organization's policies.
  - Appointment of the Director-General of WHO.
  - Administration of financial policies.
  - Review and approval of the proposed programme budget.

# What are the Key Highlights?

- Global Plan for Indigenous Health:
  - Draft resolution accepted for developing a Global Plan of Action for the Health of Indigenous People.
    - The plan will be considered at the 79<sup>th</sup> World Health Assembly in 2026.
  - Consultation with indigenous peoples and their free, prior, and informed consent emphasized.
  - Addressing challenges such as poverty, violence, discrimination, and limited access to healthcare.
  - Focus on reproductive, maternal, and adolescent health, vulnerable situations.
  - Members were urged to collect ethical data to identify specific requirements of indigenous people.
  - · Aimed at improving the health and well-being of indigenous populations.
- Global Alliance for Drowning Prevention:
  - Global Alliance for Drowning Prevention was established during the 76th WHA

- meeting.
- Aims to address global public health concerns related to drowning by 2029.
- WHO to coordinate action and prepare a global status report on drowning.
- Drowning has a significant impact on the world's poorest populations.
  - Over 90% of drowning deaths occur in low- and middle-income countries.
- Official global estimate of drowning deaths may be significantly underestimated as they
  exclude drownings attributable to flood related climatic events and water
  transport incidents.
- Draft Resolution on Chemicals, Waste, and Pollution:
  - Draft resolution on chemicals, waste, and pollution impact accepted during 76<sup>th</sup> World Health Assembly.
  - WHO urged to update Endocrine Disrupting Chemicals report with United Nations Environment Programme.
  - Limited data on chemical exposures and health concerns highlighted.
  - Resolution encourages **regulatory frameworks**, **biomonitoring**, **and risk identification** for chemicals of concern such as cadmium, lead, mercury etc.
  - Concern over poor chemical waste management and long-term health effects are raised.
  - Request for WHO report on human health implications and data gaps.
  - Importance of data organization by sex, age, disability, and harmful substances.

### WHO Program Budget:

- WHO member states agreed on a budget of 6.83 billion USD for 2024-2025, including a
   20% increase in assessed contributions.
- Over the past few years, assessed contributions had declined, accounting for less than one-quarter of WHO's financing.
- Top contributors include **Germany**, **Bill and Melinda Gates Foundation**, **US**, **UK**, and **European Commission**.
- WHO's reliance on voluntary contributions raises governance concerns and affects sustained technical cooperation and goal achievement.
- Highlighted contributions that hinder the WHO's ability to provide effective technical cooperation and achieve the **Triple Billion targets** for improving health of all by 2023.

#### Note:

**Triple billion Targets:** The goals of the Triple Billions are simple and straightforward. By 2023, WHO proposes to achieve:

- 1 billion more people benefitting from universal health coverage
- 1 billion more people better protected from health emergencies
- 1 billion more people enjoying better health and well-being.

### Replenishment Mechanism:

- Member states welcomed a new replenishment mechanism to provide flexible funding options for the WHO.
- Currently, the majority of WHO's funds come from specific voluntary contributions, leaving little flexibility for shifting funds as needed.
- The replenishment mechanism aims to raise voluntary contributions to cover the unfunded portion of WHO's base segment and ensure financial sustainability.

### **WHO Funding:**

- Assessed contributions:
  - Calculated as a percentage of a country's gross domestic product.
  - Account for less than 20% of the total budget of WHO
  - Approved every two years at the World Health Assembly.
- Voluntary contributions:
  - Account for more than three quarters of the Organization's financing.
  - Come from Member States and other partners.
  - Further categorized based on flexibility:
    - Core voluntary contributions (CVC):

- Fully unconditional and flexible, representing 4.1% of all voluntary contributions.
- Thematic and strategic engagement funds:
  - **Partially flexible,** representing 7.9% of all voluntary contributions in 2020-2021.
- Specified voluntary contributions:
  - Tightly **earmarked to specific programmatic areas** and/or geographical locations, representing 88% of all voluntary contributions.

### Pandemic Response Funding:

- WHO receives additional funding from various sources in response to global health emergencies, including pandemics.
- The <u>Covid-19</u> Solidarity Response Fund was established during the COVID-19 pandemic to receive contributions from governments, organizations, and individuals.

### India's Participation:

- Emphasized the importance of collaboration and resilient global health systems.
- Highlighted India's contribution of 300 million <u>COVID-19 vaccine doses</u> to over 100 countries.
- Stressed the significance of traditional systems like Yoga and Ayurveda.
- Mentioned the establishment of <u>WHO's Global Centre for Traditional Medicine in India.</u>
- Supported the <u>G20</u> theme of 'One Earth, One Family, One Future'.
- Shared India's achievements in healthcare and the Ayushman Bharat scheme.
- Expressed willingness to support WHO in low and middle-income countries.
- Highlighted India's contributions in Medical Value Travel and commitment to <u>Tuberculosis</u> elimination.
- Emphasized the 'Heal by India' initiative, promoting AYUSH treatments globally.
- Stressed the importance of inclusive growth and healthcare for all.
