▪ **Issues related to Girl Child:**

◦ **Female Infanticide and Foeticide:**

- India has one of the highest rates of female foeticide in the world.
- The **Census of 2011** has recorded the **lowest ever sex ratio of 914 in the age group 0-6 years** with 3 million missing girls; from 78.8 million in 2001 to 75.8 million in 2011.

◦ **Child Marriage:**

- Each year, at least 1.5 million girls under 18 get married in India. Nearly 16% of adolescent girls aged 15-19 are currently married.
- While child marriage has declined, it has been marginal: from 27% in 2015-16 to 23% in 2019-20, according to [National Family Health Survey \(NFHS\) 5](#).

◦ **Devoid of Education:**

- Girls are encouraged and also engaged more in household work and drop out of school at an early age.
- A study by the International Centre for Research on Women has found that **girls out of school are 3.4 times more likely to be married** or have their marriage already fixed than girls who are still in school.

▪ **Related Initiatives:**

◦ **Beti Bachao Beti Padhao:**

- **Scheme for Adolescent Girls:** Government is also implementing [Scheme for Adolescent Girls](#), which aims to facilitate, educate and empower Adolescent Girls (AGs) so as to enable them to become self-reliant and aware citizens.

## Way Forward

▪ **Strengthening the Child Protection System:**

- **Urgent measures are needed to strengthen the country's child protection system** and to make the police, judicial and legal systems more proactive.

▪ **Community-based Child Protection Mechanisms:**

- The **offenses related to children have a low conviction rate** and a high pendency rate hence, **boosting community-based child protection mechanisms**, such as village-level child protection committees can play a critical role.

▪ **Raising Social Awareness:**

- **Patriarchal social attitudes and prejudices need to be addressed** by including sensitisation on gender issues in school education.
