Why in News?

Recently, the <u>National Medical Commission (NMC)</u> has issued guidelines putting a hold on **new** medical colleges and expansion of existing colleges in states with more than 100 medical education seats per million population.

 Earlier, <u>NMC also issued new guidelines on professional conduct for doctors</u>, which mandate them to prescribe only generic drugs instead of specific brands.

What is the Scenario of Medical Colleges in States?

- States with Excess Medical College Seats:
 - At least 13 states and Union Territories in India have more than **100 seats per million population**, rendering them ineligible for capacity expansion.
 - Tamil Nadu has the highest number of medical college seats (11,225), followed by Karnataka (11,020), and Maharashtra (10,295).
- States with Deficient Medical College Seats:
 - There is an acute shortage of medical college seats in relation to population in Meghalaya, Bihar, and Jharkhand, where the deficit is more than 75%.
 - Meghalaya, with a population of approximately 33.5 lakh, has only 50 medical college seats.
 - Bihar and Jharkhand, with populations of 12.7 crore and 3.9 crore, have 2,565 and 980 medical college seats, respectively.
 - Uttar Pradesh, the most populous state, has 9,253 seats, with a 61% deficit.

What are the NMC Guidelines?

- In August 2023, the NMC issued regulations that set population-to-seats ratios for medical colleges.
- States with more than 100 medical education seats per million population are restricted from expanding their medical education capacity.
- The NMC argues that these guidelines are **intended to bring down regional disparities** and ensure effective quality medical education.
- The NMC's regulations will apply to new medical colleges and seat expansions starting from the 2024-25 academic session.
- The regulations do not require states with excess seats to shut down colleges or reduce

existing seats.

What is the National Medical Commission (NMC)?

- The NMC has been constituted by an act of Parliament known as <u>National Medical Commission</u> <u>Act, 2019.</u>
- The NMC acts as India's top regulator of medical education and practice.
- Committed to upholding the highest standards in healthcare education, NMC ensures the delivery of quality medical education and training across the nation.
