

APEC Fails to Reach Consensus

30th Asia Pacific Economic Cooperation (APEC) Summit took place in Papua New Guinea.

- For the first time since its inception APEC has failed to release a joint communique due to lack of consensus among the members over trade and security issues.
- All 20 countries except China agreed to the joint statement.

US-China Targeted Each Other at APEC

- US targeted China's **Belt and Road Initiative (BRI)** and called it as **"constricting belt"** and a **"One-way Road"**.
- While urging the nations to support it, US also warned smaller countries to be cautious of **"debt-trap"** by China and said not to accept debt which compromise sovereignty.
- China defended BRI and said that there is **no geo-political agenda behind it** and it is **not an exclusive club closed to non-members**, nor is it a trap.
- China targeted US policy of **"America First"** and said that erecting barriers and cutting ties is a **short-sighted approach doomed to fail**.

Consequences

- **On Global Economy**
 - The U.S.-China discord at APEC highlights the dangers of their trade war, trade war between the US and China could cripple the Pacific Rim economy.
 - Due to the tariff war International Monetary Fund has downgraded its global growth outlook for 2018 and 2019.
 - If this continues, global supply chains will be impacted, and shrinking trade volumes may cause companies to seek out new trading routes and partners.
- **On Global Institutions**
 - Multilateral rule-making bodies such as the World Trade Organisation (WTO) and APEC may lose their authority, and an interlocking system of bilateral trade treaties may substitute the consensus-based approach which came into existence after World War 2.
