

Exercise MILAN 2024

Source: PIB

Why in News?

<u>Exercise MILAN</u> **2024** recently concluded with the closing ceremony held aboard the <u>INS Vikrant</u>, marking the end of the Sea Phase off **Visakhapatnam**.

What is MILAN 2024?

- MILAN 2024 is the 12th edition of the biennial Multilateral Naval Exercise held at Visakhapatnam, under the aegis of Eastern Naval Command.
 - The central aim of MILAN is to enhance professional interaction between friendly navies and gain experience in multilateral large-force operations at sea.
 - It made a beginning in the <u>Andaman and Nicobar Islands</u> in 1995. The navies of Indonesia, Singapore, Sri Lanka and Thailand participated in this edition.
- The 2024 exercise consisted of two phases:
 - **Harbour Phase** featuring International Maritime Seminar, city parades, tech exhibitions, expert exchanges, youth officer gatherings, and sports events.
 - The International Maritime Seminar was themed 'Partners across Oceans: Collaboration, Synergy, Growth'
 - **Sea Phase** involves the participation of ships, and aircraft from friendly nations, Indian Navy's carriers, and other units.

What are the Recent Major Developments Related to the Indian Navy?

- Commissioning of New Ships:
 - INS Vikrant: India's first indigenously-built aircraft carrier, a major milestone in achieving self-reliance in defense manufacturing.
 - INS Mormugao: A stealth guided-missile destroyer, part of the <u>Project 15B</u> for enhancing anti-surface warfare capabilities.
 - INS Vagir: A new Kalvari-class submarine, bolstering the Navy's underwater power.
 - INS Sandhayak: It is the first Survey Vessel Large (SVL) ship commissioned into the Indian Navy recently.
- Recent Acquisition Programs:
 - Project 17A Frigates: Advanced stealth frigates under construction at indigenous shipyards.
 - **Project 75I Submarines:** Program to build six indigenously-designed submarines with advanced stealth and firepower
- Submarine Rescue Advancements:
 - Acquisition of advanced <u>Deep Submergence Rescue Vehicles (DSRVs)</u> by the Indian Navy in 2018 and 2019 from the United Kingdom, enhancing submarine rescue capabilities.
 - India is among the 12 countries possessing this niche technology, highlighting its strategic importance.
 - Also, induction of two indigenous **Diving Support Vessels (DSVs)** by Hindustan Shipyard Ltd, Visakhapatnam, further strengthened submarine rescue operations.
 - DSRV system's capabilities include locating submarines up to 1,000 metres depth

using advanced sonar technology and remotely operated vehicles.

Note

The Indian Navy recently announced that it had successfully engaged a land target with the **BrahMos missile** at an enhanced range of 900 km.

UPSC Civil Services Examination, Previous Year Question (PYQ)

Prelims:

- Q. What is "Terminal High Altitude Area Defense (THAAD)", sometimes seen in the news? (2018)
