

World Wildlife Day

Source: WWD

<u>United Nations World Wildlife Day (WWD)</u> is celebrated every year on **3rd March** to celebrate the vast array of wild animals and plants on our planet and raise awareness about the threats they face.

- The 2024 theme is: Connecting People and Planet: Exploring Digital Innovation in Wildlife Conservation.
 - It highlights the growing role of technology in protecting wildlife. From tracking endangered species to monitoring illegal wildlife trade, digital tools are offering new hope for safeguarding biodiversity.
- On 20th December 2013, during the 68th Session of the United Nations General Assembly (UNGA), 3rd March was established as WWD.
 - This date commemorates the signing of the <u>Convention on International Trade in</u> <u>Endangered Species of Wild Fauna and Flora (CITES)</u> in 1973.
