Why in News?

Recently, the <u>Dharavi Redevelopment Project (DRP)</u>, an initiative to rebuild Asia's largest slum **Dharavi**, has sparked heated controversies due to allegations of favoritism towards the winning bidder for the project.

A <u>Special Purpose Vehicle (SPV)</u> named <u>Dharavi Redevelopment Project Pvt Ltd (DRPPL)</u>
has been established for this project.

What is the Dharavi Redevelopment Project?

- In 2004, the state government formed the Dharavi Redevelopment Authority under the Slum Redevelopment Authority (SRA) with the goal of making Mumbai a slum-free city.
- The initiative addresses the persistent urban challenge of <u>slum redevelopment</u> in <u>Mumbai</u>, a city with a significant slum population.
- The redevelopment plan aims for an integrated development approach encompassing residential, commercial, and industrial aspects.
- This project highlights the <u>public-private partnership</u> **aspect** in addressing urban redevelopment challenges.
- The redevelopment plan's floor space index of over 4 indicates a significant intensity of land use, emphasizing the multi-dimensional nature of the project.

What is Dharavi?

- Dharavi is the biggest slum cluster of Asia that lies on prime property right in the middle of Mumbai.
- It is spread over 300 hectares, of which the state government has notified 240 hectares for the project.
- It was founded in 1882 at the time of the British Raj.

What is a Special Purpose Vehicle (SPV)?

- A special purpose vehicle is a separate legal entity which has all the attributes of a corporation such as owning assets, capacity to and get sued etc.
- A SPV, also known as a special purpose entity (SPE), is like a separate company created by a main company to protect against financial risks.
- Even if the main company faces <u>bankruptcy</u>, the SPV's independent legal status ensures that its obligations remain secure.
 - This is why a SPV is often referred to as a bankruptcy-remote entity.
- A **SPV** can be employed to take on a **risky project**, lessening any potential financial harm to the main company and its investors.
- Venture capitalists use SPVs to gather funds and invest in a startup.
