- India-US bilateral ties have **enhanced to a level that enables the two nations to deal collaboratively with larger issues.**
- Welcomes **US' strong commitment to strengthen the India-US strategic partnership** that is anchored in shared democratic values and is a force for global good.
- Responded to the US concerns on the issues with a number of points, making it clear that the **quest for a more perfect democracy applied to both the US and India.**
- India's policies of the last few years had been to right wrongs done historically, and that **while freedoms are important, they should not be equated with the lack of governance".**

## Current State of India-US Ties

- India and US inked **important defence pacts** in the last few years and also **formalised the four nation alliance of QUAD.**
  - The alliance is seen as an important counter to China in the Indo-Pacific.
- The **[Malabar exercise](#)** in November 2020 portrayed a high point in Indo-US strategic ties, it was the **first time in 13 years that all four countries of QUAD came together** sending a strong message to China.

  - **[Communication Compatibility and Security Agreement \(COMCASA\).](#)**

### ▪ Trade:

- The previous US government **[ended India's special trade status \(GSP withdrawal\)](#)** and also imposed several bans, India also retaliated with bans on 28 US products.
- Current **US government has allowed all the bans by the previous government to expire.**

  - When the US was reeling under a deadly **Covid** wave last year, **India rushed important medical supplies and eased export restrictions to help the country**.
  - Initially the US showed hesitancy in returning the favour when India needed it, however the **US quickly changed its stance and rushed supplies to India**.

## Way Forward

- There is a **huge potential to boost bilateral trade between the countries** especially on account of increasing **anti-China sentiment in both the nations**.
- Thus, the negotiation should **focus on the resolution of various non-tariff barriers** and other market access improvements as early as possible.
- In order to counter China in the maritime domain, **India needs to fully engage with the US and other partners in the Indo-pacific region**, in order to preserve the freedom of navigation and the rules-based order.
- In international politics, **there are no permanent friends and no permanent enemies, only permanent interests**. In such a scenario India must continue to pursue its foreign policy of **strategic hedging**.
