### Why in News?

Chanda Kochhar (Ex-ICICI Bank CEO) serves as a cautionary tale of the dangers of greed in the corporate world.

 The <u>Central Bureau of Investigation (CBI)</u> has alleged that ICICI Bank had sanctioned credit of Rs 3,250 crore to the companies of the Videocon Group promoted by Dhoot in violation of the <u>Banking Regulation Act</u>, **RBI guidelines**, and credit policy of the bank.

### What is Corporate Governance?

- About:
  - Corporate governance, which refers to the system of rules, practices, and processes by which a company is directed and controlled, plays a crucial role in ensuring that businesses are run ethically and in the best interests of their stakeholders.
  - One of the key responsibilities of corporate governance is to prevent corporate greed and ensure that businesses are operated in a responsible and transparent manner.
  - By enforcing strong ethical standards and holding individuals accountable for their actions, corporate governance can help to curb greed and protect the interests of shareholders, customers, and the broader community.
- Principles of Corporate Governance
  - Fairness:
    - The board of directors must treat shareholders, employees, vendors, and communities fairly and with equal consideration.
  - Transparency:
    - The board should provide timely, accurate, and clear information about such things as financial performance, conflicts of interest, and risks to shareholders and other stakeholders.
  - Risk Management:
    - The board and management **must determine risks of all kinds and how best to control them.** They must act on those recommendations to manage them. They must inform all relevant parties about the existence and status of risks.
  - Responsibility:
    - The board is **responsible for the oversight of corporate matters** and management activities.
    - It must be aware of and support the successful, ongoing performance of the company. Part of its responsibility is to recruit and hire a CEO. It must act in the best interests of a company and its investors.

#### Accountability:

• The board must **explain the purpose of a company's activities and the results of its conduct.** It and company leadership are accountable for the assessment of a company's capacity, potential, and performance. It must communicate issues of importance to shareholders.

### What are the Ethical Issues with Corporate Governance in India?

#### Conflict of Interest:

The challenge of managers potentially enriching themselves at the cost of shareholders
e.g., the recent case of former ICICI bank head Chanda Kochar approved a loan to Videocon
for a quid pro quo deal for her husband.

#### Weak Board:

 Lack of diversity of experience and background represents a major area of weakness for these boards. There have been questions about the board performing in the larger interests of the shareholders.

### Separation of Ownership and Management:

 In case of family-run companies, the separation of ownership and management remains a key challenge in the majority of companies including some of India's top ones.

#### Independent Directors:

 Independent directors are partisan and are not able to check promoters unethical practices.

#### What are the Related Initiatives?

- The Ministry of Corporate Affairs (MCA) and <u>Securities and Exchange Board of India (SEBI)</u> is responsible for corporate governance initiatives in India. The corporate sector of India faced major changes in the 1990s after liberalization.
  - SEBI monitors and regulates corporate governance of listed companies in India through Clause 49.
- The Companies Act, 2013 provides a formal structure for corporate governance by enhancing disclosures, reporting and transparency through enhanced as well as new compliance norms.

### **How Corporate Governance in India can be Improved?**

#### Diverse Boards are better Boards:

 In this context, 'diverse' is all-encompassing, including gender, ethnicity, skills and experience.

### Robust Risk Management Policies:

• Adoption of effective and robust risk management policies for better decision making as it develops a deeper insight into the risk-reward trade-offs that all Corporations face.

### • Effective Governance Infrastructure:

- Since the board is ultimately responsible for all the actions and decisions of an organisation, it will need to have in place specific policies to guide organisational behaviour.
- To ensure that the line of responsibility between board and management is clearly delineated, it is particularly important for the board to develop policies in relation to delegations.

#### • Evaluation of the Board's Performance:

• Boards should improve their **governance processes by addressing weaknesses** revealed in board evaluations.

#### Communication:

 Facilitating shareholder communication with the board is key. There is a need to provide a contact person with whom shareholders may discuss any issue.
