### Why in News

  - The <u>Economic Survey</u> 2016-17 had suggested that <u>employees be allowed to choose</u> whether or not to save **12%** of their salary into <u>EPF</u> or keep it as take home pay.
- As per current laws, a person mandatorily becomes a member of EPF if his monthly salary does not exceed Rs. 15,000.

- High Returns:
  - Amid falling interest rates owing to the <u>economic slowdown</u> throughout 2020 due to the <u>Covid-19 pandemic</u>, the EPFO has managed to **hold** on to **the high interest rate** of 8.5% in the current year.
- Reason for High Returns:
  - The interest rate recommended was a result of the income from interest from <u>debt</u> investment and income from equity investment.
    - EPFO had decided to **liquidate investment in equity** through **exchange traded funds**, which it had started in **2015-2016**.
