

## Fields Medals 2022

### Why in News?

# Recently, **Ukrainian mathematician Maryna Viazovska** along with other three mathematicians **received the prestigious Fields Medals.**

• Fields medal is often described as the Nobel Prize in mathematics.

#### What are the Key Highlights about Field Medal?

- About:
  - The Fields Medal is awarded every four years to one or more mathematicians under the age of 40.
  - Fields Medal is awarded at the International Congress of the <u>International Mathematical</u> <u>Union (IMU).</u>
    - IMU is an international non-governmental and non-profit scientific organization.
      - The purpose of IMU is to promote international cooperation in mathematics.
  - Fields medal is awarded to recognize outstanding mathematical achievement for existing work and for the promise of future achievement.
  - The Fields Medal Committee is chosen by the Executive Committee of the International Mathematical Union and is normally **chaired by the IMU President.**
- History:
  - The 1924 ICM in Toronto adopted a resolution that at each conference, two gold medals would be awarded to recognise outstanding mathematical achievement.
  - The Canadian mathematician Prof J C Fields, who was secretary of the 1924 Congress, later donated funds to establish the medals, which were named in his honour.
  - In 1966, it was agreed that, in light of the great expansion of mathematical research, up to four medals could be awarded at each Congress.
  - It was first awarded in 1936.

#### What about the Indian-origin winners?

- Among the more than 60 mathematicians who have been awarded the Fields Medal since 1936, there are two of Indian origin:
  - Akshay Venkatesh of the Institute for Advanced Study at Princeton (2018)
  - Manjul Bhargava of the Department of Mathematics at Princeton University (2014).
