

Global Economic Prospects: World Bank

Why in News

Recently, the [World Bank](#) has released its **June 2021 Global Economic Prospects** where it has **forecast India's GDP growth to be 8.3% for the year 2021-22.**

Key Points

▪ GDP Estimate:

◦ For India:

- India's economy is expected to grow **at 8.3%** for Fiscal Year **2021-22**, **7.5%** for **2022-23** and **6.5%** for **2023-24.**

◦ For World:

- The world economy is expected to expand **5.6%**, the **fastest post-recession growth rate in eighty years.**
- However, **global output will still be 2% below pre-pandemic projections** by year-end.

OTHER HIGHLIGHTS

- ▶ The World Bank predicts global growth of 5.6% this year, up from 4.1% forecast in January. That will be fueled largely by a 6.8% expansion in the U.S. and 8.5% in China
- ▶ Growth in low-income countries is expected to be the second-

slowest of the past 20 years at 2.9% – down from the 3.4% forecast in January, held back by lack of access to vaccines

- ▶ Global recovery could falter once policy support is withdrawn
- ▶ Developing nation per-capita income will be slower to recover

▪ Cause:

◦ For FY 2020-21:

- The projected growth **compares to the worst ever** [contraction of 7.3% in FY 2020-21](#) and **4% expansion in 2019-20.**
- India's recovery is **being hampered by the largest outbreak of any country** since the beginning of the pandemic.

◦ For FY 2021-22:

- The forecast for FY22 (8.3%) factors in **expected economic damage from an**

enormous [second Covid-19 wave](#) and localised mobility restrictions since March 2021.

- **For FY 2022-23:**

- **Growth is expected to slow to 7.5%** as a **result of the pandemic's lingering effects** on the financial position of households, companies and banks and possibly low levels of consumer confidence and heightened uncertainty around job and incomes.

- **Steps Taken by India:**

- The **Reserve Bank of India (RBI)** announced [measures](#) to provide liquidity to Micro, Small and Medium firms (MSMEs), and loosened regulatory requirements on the provisioning for non-performing assets.
- **Fiscal policy** shifted in the **FY 2021/22 budget** toward higher expenditure targeted at healthcare and infrastructure to boost the post-pandemic recovery.

- **Suggestions:**

- Globally **coordinated efforts are essential** to accelerate **vaccine distribution and debt relief**, particularly for low-income countries.
- As the health crisis eases, policymakers will **need to address the pandemic's lasting effects** and take steps to **spur green, resilient, and inclusive growth** while safeguarding **macroeconomic stability**.
- For low-income countries, **policies focusing on scaling up social safety net programs, improving logistics and climate resilience of local food supply** would be more helpful.

Key Terms

- **Gross Domestic Product**

- GDP is a **measure of economic activity** in a country. It is the total value of a country's annual output of goods and services. It gives the economic output from the **consumers' side**.
- $GDP = \text{Private consumption} + \text{Gross investment} + \text{Government investment} + \text{Government spending} + (\text{exports} - \text{imports})$.

- **Recession and Depression**

- **Recession:** It is a macroeconomic term that refers to a **slowdown or a massive contraction** in economic activities for a long enough period, or it can be said that when a recession sustains for long enough, it is called a recession.
- **Depression:** It is a deep and long-lasting period of **negative economic growth**, with output falling for at **least 12 months** and GDP falling by **over 10%** or it can be referred to as a **severe and prolonged recession**.

- **Fiscal Policy**

- Fiscal policy refers to the **use of government spending and tax policies to influence economic conditions**.
- During a recession, the government may employ **expansionary fiscal policy** by lowering **tax rates** to increase aggregate demand and **fuel economic growth**.
- In the face of mounting **inflation** and other **expansionary symptoms**, a government may pursue **contractionary fiscal policy**.

World Bank

- **About:**

- The **Bretton Woods Conference held in 1944**, created the International Bank for Reconstruction and Development (IBRD) along with the [International Monetary Fund \(IMF\)](#).
 - The **IBRD later became the World Bank**.
- The World Bank Group is a **unique global partnership of five institutions** working for sustainable solutions that reduce poverty and build shared prosperity in developing countries.

▪ **Members:**

- It has **189 member countries**. India is also a member country.

▪ **Major Reports:**

- [Ease of Doing Business](#).
- [Human Capital Index](#).
- [World Development Report](#).
- [Migration and Development Brief](#).
- Global Economic Prospects.

▪ **Its Five Development Institutions:**

- **International Bank for Reconstruction and Development (IBRD):** Provides loans, credits, and grants.
- **International Development Association (IDA):** Provides low- or no-interest loans to low-income countries.
- **International Finance Corporation (IFC):** Provides investment, advice, and asset management to companies and governments.
- **Multilateral Guarantee Agency (MIGA):** Insures lenders and investors against political risk such as war.
- **International Centre for the Settlement of Investment Disputes (ICSID):** Settles investment-disputes between investors and countries.
 - India is **not a member of ICSID**.
