

Now 'Aadhaar Card' Based Attendance will be done at Skill Development Training centers

Why In News?

- On October 25, 2023, Director of Haryana Skill Development Mission Dr. Vivek Agarwal informed that the state government has decided to start 'Aadhaar card' based attendance at all the training centers of the state being run for the training of youth under the Haryana Skill Development Mission.

Key Points:

- In the first phase, a pilot scheme was started at three training centers, which has been successful. In view of this success, now the 'Aadhaar Card' based attendance of youth is being started at all training centers across the state.
- Director Dr. Vivek Agarwal informed that short-term skill development training is organized at training centers in collaboration with training partners in all districts of the state. These training courses are of three to four months duration in various NSQF aligned courses.
- Many training courses like Assistant Electrician, Data Entry Operator, Beautician, Warehouse Packer, Operator, Junior Analyst, Self Employed Tailor, Yoga Instructor, Installation Technician, Craft Baker are conducted at these training centers.
- Dr. Agarwal said that on some complaints about the presence of youth undergoing training at various training centers running under Haryana Skill Development Mission, the mission acted and started Aadhaar card-based e-verification system in three training centers Kurukshetra, Indri (Karnal) and Rewari as a pilot project. Its result was found satisfactory, so the mission will implement it soon at all the centers of the state in the future.
