

108th Indian Science Congress

Why in News?

Recently, the 108th session of the India Science Congress (ISC) was inaugurated by the Prime Minister.

■ The event's theme is 'Science and Technology for Sustainable Development with Women's Empowerment'.

What are the Highlights of the PM Address?

- Importance of Women's Participation:
 - Increasing participation of women is a reflection of the progress of society and science.
 - Today, the country's thinking is not only that women should be empowered through science, but science should also be empowered with the participation of women.
 - Women's participation in extramural research has doubled over the last eight years.
 - India has been given the opportunity to preside over <u>G20</u>.
 - Women-led development is one of the high-priority subjects taken up by the chair.
- India's Achievements:
 - India is now one of the top three countries in the world when it comes to the number of PhD research works and startup ecosystems.
 - The country is now ranked 40th on the Global Innovation Index 2022, up from the 81st rank in 2015.
 - · Scientific developments should ultimately make the country Atmanirbhar.
- Importance of Science in Today's World:
 - The efforts of science can bear fruit only when they go from labs to land.
 - With 2023 being **declared as the** <u>International Year of Millets.</u> India's millets and their use should be further improved with the <u>use</u> of science.
 - The scientific community should work towards reducing post-harvest losses with the help of biotechnology.
- Energy Innovation:
 - Endorsed the need for the scientific community to focus on working on a National Hydrogen Mission and stressed the need to manufacture critical equipment like electrolysers in India to make it a success.
 - The National Hydrogen Mission was launched on India's 75th Independence Day (15th August 2021).
- Other Highlights:
 - **Stressed on the increasing importance of data gathering and analysis** as well as the importance of traditional knowledge alongside modern knowledge.
 - **Acknowledged the role of low-cost satellite launch vehicles** in the booming space sector in India and pointed to the importance of quantum computing.
 - Stressed the need to focus on futuristic ideas and areas where no work is happening anywhere as well as the importance of keeping <u>Artificial intelligence (AI)</u>. <u>Augmented Reality (AR)</u> and **Virtual Reality (VR)** as priorities.

What is the India Science Congress?

About:

- With a history dating back to 1914, the Science Congress is a one-of-its-kind event in the country.
- It brings together scientists and researchers not just from the premier institutions and laboratories but also science teachers and professors from colleges and universities.
- It offers a platform for their interaction with students and the general public on matters related to science.
- It is a **celebration of Indian science that has had an illustrious past,** with the who's who of Indian science participating and organizing.
- The first session of the Indian Science Congress was held in 1914.

Organiser:

- Indian Science Congress Association (ISCA).
 - It is an independent body functioning with the support of the Department of Science and Technology (DST) in the central government.

Decline of Science Congress:

- In more recent times, the **event has attracted attention for all the wrong reasons:**
 - Lack of serious discussion, the promotion of pseudoscience, outlandish claims by random speakers, and the absence of useful outcomes.
- As a result, several top scientists have advocated the discontinuation of the event, or at least withdrawal of government support.
 - For organising the Science Congress, the government provides an annual grant.

The Vision

Besides this, the government has no role to play in organising the ISC.
