

Inauguration of Seed Processing and Storage Facility at Indian Grassland and Fodder Research Institute

Why In News?

- On March 11, 2023, the Union Minister of Agriculture and Farmers Welfare, Narendra Singh Tomar inaugurated the seed processing and storage facility of the Indian Council of Agricultural Research (ICAR) at the Indian Grassland and Grassland Research Institute, Jhansi. Women farmers conference was also organized on this occasion.

Key points

- Three units of such seed processing have been set up at regional research centres at Dharwad and Srinagar, which have been funded by the Ministry of Agriculture with financial assistance of Rs 3.7 crore.
- During the Mahila Krishak Sammelan, agricultural implements worth Rs 50 lakh were distributed to the beneficiary women farmers under the Scheduled Caste sub-project run by the institute/centres.
- The Government of India established the Indian Pasture and Fodder Research Institute in 1962 in Jhansi, the historical city of Veerangana Maharani Lakshmibai, for the development of advanced species of pasture and fodder and their management and maintenance.
- Almost all the major grasses are found in Jhansi, with this view the institute was established here, later in the year 1966 its administrative control was handed over to the Indian Council of Agricultural Research, New Delhi.
- Keeping in view the regional requirements of climate and agriculture, three regional research centres of this institute have been established in other parts of India, which are located at Ambika Nagar (Rajasthan), Dharwad (Karnataka) and Palampur (Himachal Pradesh).
