What is the Status of India's relationship with OIC as an organisation?

- As a country with the world's second-largest Muslim community, India had been invited to the founding conference at Rabat in 1969, but was ejected at Pakistan's behest.
- Also, India stayed away because of a multiplicity of reasons:
 - It did not want to join an organisation founded on religion.
 - There was the risk that improving bilateral relations with individual member states would come under pressure in a grouping, especially on issues such as Kashmir.
- At the 45th session of the Foreign Ministers' Summit in 2018, <u>Bangladesh</u>, the host, suggested that India, where more than 10% of the world's Muslims live, should be given Observer status, but Pakistan opposed the proposal.
 - India has, on various occasions, expressed the need for a more inclusive approach within the OIC.
- After building close ties with powerful members such as <u>UAE</u> and <u>Saudi Arabia</u>, India has been confident of riding over any statement by the grouping.
 - The OIC has, at times, expressed concerns and called for resolutions in line with the wishes of the Kashmiri people.
 - In 2018, the OIC General Secretariat had "expressed strong condemnation of the killing of innocent Kashmiris by Indian forces in Indian-occupied Kashmir".
 - India has consistently underlined that J&K is an "integral part of India and is a
 matter strictly internal to India", and that the OIC has no locus standi on the
 issue
- In 2019, India made its maiden appearance at the OIC <u>Foreign Ministers' meeting</u>, as a "guest of honour". 2019 is the 50th anniversary of OIC.
 - This **first-time invitation was seen as a diplomatic victory for India**, especially at a time of heightened tensions with Pakistan following the **Pulwama attack**.
- In 2022, the OIC called on the **UN Human Rights Council** to take "necessary measures" on the issue of Muslim girl students being told not to wear the hijab in Karnataka schools.
 - The OIC also urged India to "ensure the safety, security and well being of the Muslim community while protecting their way of life".
- The OIC has criticised Government of India over the <u>Citizenship (Amendment) Act, 2019</u>, and the <u>Babri Masjid verdict</u> of the Supreme Court in the recent times.

What is the Significance of Recent 47th Session of OIC Meeting?

- The 47th session of the OIC Council of Foreign Ministers held at Niamey (Niger), had **made a** reference to India over its policies on Jammu and Kashmir.
 - It said that the decision of the Indian government to <u>repeal special status of J&K (in 2019)</u> was aimed towards changing the demographic and geographic composition of the territory.

India's Stand:

- India strongly hit out at the OIC, accusing it of making "factually incorrect and unwarranted" references to Jammu and Kashmir in resolutions adopted by the grouping at the session.
- India believes in busting the double standard of OIC, where it supports the agenda of

- Pakistan in the name of human rights.
- India now sees the duality of the OIC as unjustifiable, since many of the member countries of the OIC have good bilateral ties and convey to India to ignore OIC statements but sign off on the joint statements which are largely drafted by <u>Pakistan</u>.

What are the Criticisms Faced by OIC?

• Incompetence in Investigating Human Rights Violations:

- The OIC faces criticism for lacking the power and resources necessary to effectively investigate human rights violations or enforce decisions made through treaties and declarations.
- The organization's inability to independently probe and take action on violations within its member states undermines its credibility as a human rights advocate such as Kafala System in Saudi Arabia etc.

Centrality of Quranic Values:

- The OIC's role is largely confined to arbitrating conflicts where both parties involved are Muslim, reflecting its focus on Quranic values as a basis for qualification in dispute resolution.
- The organization's narrow focus limits its involvement in conflicts that do not adhere to this criterion, potentially hindering its broader impact on global conflict resolution.

Failure to Establish Cooperative Ventures:

- The OIC has faced criticism for its inability to foster cooperative ventures among member states, particularly in the context of economic collaboration.
- The organization's failure to effectively bring together capital-rich and labor-scarce
 nations with manpower-rich and capital-scarce nations has impeded its growth as a
 significant player in both international politics and economic cooperation.

Limited Coordination on Global Issues:

The OIC faces difficulties in coordinating responses to global challenges, such as <u>climate</u> <u>change</u>, <u>pandemics</u>, and <u>cybersecurity</u>, due to diverse priorities and capacities among member states.

• Internal Conflicts and Political Instability:

- Several OIC member states experience internal conflicts and political instability, affecting regional peace and cooperation.
- The ongoing conflicts in countries like <u>Syria</u>, <u>Yemen</u>, and <u>Libya</u> have strained the OIC's
 efforts to address these crises collectively, given differing positions among member states.

Challenges in Implementing Resolutions:

- While the OIC can pass resolutions, the actual implementation of these decisions faces challenges, often due to the diverse interests and priorities of member states such as lack of consensus among OIC members in the recent bombings of Gaza Strip by Israel Defence Forces.
 - Resolutions related to conflict resolution or humanitarian aid may face obstacles in implementation, especially when member states have conflicting geopolitical interests. For Example, <u>India-Middle East-Europe Economic Corridor</u>.

What are the Steps to be Taken to Strengthen the OIC?

- Enhanced Focus on Human Rights: Strengthen the OIC's mechanisms for addressing human rights violations within member states. Develop an independent human rights commission within the OIC to investigate and address violations, similar to the role played by regional bodies like the European Court of Human Rights.
- Broadening Scope of Conflict Resolution: Expand the OIC's mandate to engage in conflict
 resolution beyond disputes involving Muslim parties. Actively involve the OIC in mediating conflicts
 in regions where Muslim and non-Muslim communities are involved, demonstrating a commitment
 to a broader role in global peacebuilding such as XinJiang Province in China.
- **Economic Cooperation and Development**: Strengthen economic cooperation initiatives to bridge the gap within the OIC. Develop and implement economic projects that promote collaboration, such as **joint investment funds**, **infrastructure development programs**, and **technology-sharing initiatives**.
- Capacity Building and Resource Allocation: Enhance the OIC's capacity to address global

challenges by allocating sufficient resources and building institutional capabilities. Establish **specialized units or task** forces within the OIC to focus on issues like cybersecurity, climate change, and pandemics, reflecting a commitment to addressing contemporary challenges.

- Promotion of Educational and Cultural Exchange: Strengthen programs that promote
 educational and cultural exchange among member states to enhance mutual understanding.
 Expand initiatives similar to those implemented by <u>UNESCO</u> or regional organizations that focus
 on preserving cultural heritage, fostering academic collaboration, and promoting people-topeople connections.
- Addressing Internal Conflicts: Develop proactive measures to address internal conflicts and
 political instability within member states. Establish a conflict prevention and resolution
 mechanism that involves early intervention and diplomatic efforts to prevent escalation, drawing
 lessons from successful conflict resolution models in other international organizations. For
 Example- Arab Spring and Rise of ISIS.
- Diversification of Partnerships: Diversify partnerships beyond OIC member states to include collaborations with international organizations, non-governmental organizations, and other regional entities. Forge partnerships with organizations like the <u>United Nations</u>, <u>the World Bank</u>, and regional bodies to leverage resources, expertise, and networks in addressing common challenges.

Conclusion

OIC has significant potential to transform the global landscape and usher in an era of peace, prosperity and security if the internal and external issues of member countries are addressed effectively despite certain hiccups, by promoting democratic values and upholding the rule of law.
