

National Agrochemicals Congress

The first-ever National Agrochemicals Congress was held at the Indian Agricultural Research Institute (IARI), New Delhi from 13th - 16th November 2019. It will be conducted every three years.

- The theme of the Congress is 'Country's Status on Various Fronts of Agrochemicals'.
- Agrochemicals imply chemicals used in agriculture, such as a pesticide or fertilizer.
- The Congress was conducted in view of the role chemical pesticides still continue to play in pest management as more and more target-specific and environment-friendly products are being introduced.
- It was conducted by the Society of Pesticide Science India, headquartered at Division of Agricultural Chemicals, IARI, New Delhi.
- Recommendations:
 - Labelling of pesticide indicating the mode of action,
 - To rethink on restrictive banning of pesticides in view of risk-based considerations,
 - Policy regarding data protection of imported technical pesticides and
 - Policy for the introduction of safe nano-formulations and empowerment of farmers through training and extension.

Indian Agricultural Research Institute

- IARI is the leading institution for agricultural research, education and extension in the country.
- It comes under the Indian Council of Agricultural Research (ICAR), an autonomous organisation under the Ministry of Agriculture and Farmers Welfare.
 - The Council is the apex body for coordinating, guiding and managing research and education in agriculture including horticulture, fisheries and animal sciences in the entire country.
