

Stockholm Junior Water Prize

Why in News?

Recently, **Annabelle M. Rayson**, a student from Canada received the **prestigious 2022 Stockholm Junior Water Prize** for her research on **how to treat and prevent** <u>harmful algae blooms</u>.

■ **Harmful Algal Blooms, or HABs,** occur when colonies of algae grow out of control and produce toxic or harmful effects on people, fish, shellfish, marine mammals and birds.

What is Stockholm Junior Water Prize?

- About:
 - Stockholm Junior Water is an international competition where students aged 15 to 20 years present solutions to major water challenges.
 - It has been organized every year since 1997 by the Stockholm International Water Institute, with Xylem, an American water technology provider.
 - This prize is a popular part of the World Water Week.
- Other Prizes:
 - Diploma of Excellence:
 - It was awarded to Laura Nedel Drebes and Camily Pereira dos Santos from Brazil for their development of addressing the issue of period poverty — the inaccessibility to sanitary pads.
 - People's Choice Award:
 - The People's Choice Award went to Mishal Faraz from the United Arab
 Emirates for Water Bottle Project to discourage the use of single-use plastic water bottles and strengthen water security.
