

UN General Assembly Adopts Landmark AI Resolution

Source: [UN](#)

The [UN General Assembly](#) has taken a historic step by adopting a landmark resolution focused on promoting the **safe, secure, and trustworthy use of [artificial intelligence \(AI\)](#) systems**, aligning with the goals of sustainable development.

- This adoption marks the first time the Assembly has addressed regulation in the rapidly evolving field of AI, signalling a significant milestone in global governance.
- The resolution recognises AI's potential to accelerate progress towards the **17 [Sustainable Development Goals](#)** and calls for cooperation among states, private sectors, civil society, and other stakeholders to develop regulatory frameworks and governance approaches for safe AI usage.
- Additionally, the Assembly stresses the importance of **bridging the digital divide by supporting developing countries** in gaining inclusive access to AI technologies and enhancing digital literacy, ensuring that technological advancement benefits everyone equally.
 - While **General Assembly resolutions are not legally binding**, they serve as a crucial indicator of global opinion.
