World Telecom Day 2023

For Prelims: World Telecom Day, Sanchar Saathi portal , Central Equipment Identity Register, International Telecommunication Union (ITU)

For Mains: <u>Achievements of India's telecom sector</u>, Role of the Sanchar Saathi portal in addressing fraudulent activities, Positioning India as a global telecom power.

Why in News?

India on May 17, 2023, commemorated **World Telecom Day**, celebrating the advancements and **achievements in the telecommunication sector.**

- The Sanchar Saathi portal was launched on the day to enhance transparency, security, and accountability in the telecom industry.
- The year 2023 also marks the completion of 20 years of <u>Universal Service Obligation Fund</u> (USOF).

What is World Telecom Day?

- About:
 - World Telecommunication Day is celebrated annually since 1969, to mark the founding of International Telecommunication Union (ITU) and the signing of the
 - first International Telegraph Convention in 1865.
 - It aims to raise **awareness of the importance of telecommunication** and its contribution to social and economic development.
 - The <u>World Summit on the Information Society (WSIS)</u> called for the declaration of May 17 as World Information Society Day.
 - In 2006, the ITU combined both tents and celebrated them on May 17 as World Telecommunication and Information Society Day (WTISD).
- Theme:
 - The theme of World Telecom Day 2023 is "Empowering the least developed countries through information and communication technologies".
 - The theme reflects the commitment of the ITU and its partners to support the **least** developed countries (LDCs) in harnessing the power of <u>Information and</u> <u>Communications Technologies(ICT)</u> for achieving their <u>sustainable development</u> goals (SDGs).

Highlights from the Event:

- Exhibition showcasing innovations in the telecom sector by start-ups.
- Recognition of top performing **Bharat Udyamis** ensuring last mile connectivity.
 - Udyami Bharat a programme launched by the government of India to empower the micro, small and medium enterprises (MSMEs) sector.
- Release of a report on the First International <u>Quantum Communication</u> Conclave.
 - Insights shared by national and international experts on the roadmap and developments in <u>quantum technologies</u> and their potential impact in various

sectors.

 Emphasis on the important role played by USOF and <u>BharatNet</u> in bridging the digital divide and providing connectivity to underserved areas.

What is the Sanchar Saathi Portal?

- About:
 - The Sanchar Saathi portal, developed by the Centre for Development of Telematics (C-DOT) under the Department of Telecommunications (DoT), is revolutionizing the telecom sector in India.
- Objective:
 - The primary objective of the Sanchar Saathi portal is to address various fraudulent activities prevalent in the telecom industry, such as identity theft, forged KYC, and banking fraud.
 - By leveraging advanced technologies and frameworks, the portal aims to provide users with a secure and trustworthy telecommunication experience.

Reforms Introduced:

- CEIR (Central Equipment Identity Register):
 - Implemented to block stolen or lost mobile phones.
 - Users can submit **IMEI numbers** along with a copy of the police complaint to verify and block stolen devices.
 - Integrated with Telecom Service Providers and Law Enforcement Agencies.
 - Prevents stolen devices from being used in Indian networks and allows tracing by law enforcement when necessary.
- Know Your Mobile Connections:
 - Allows users to check mobile connections registered in their name.
 - Enables identification of unauthorized or fraudulent connections.
 - Users can report fraudulent or unrequired connections, triggering re-verification and termination of reported connections.
- ASTR (<u>Artificial Intelligence</u> and <u>Facial Recognition</u> powered Solution for Telecom SIM Subscriber Verification):
 - Developed to identify subscribers who obtain connections using fraudulent or forged documents.
 - Utilizes facial recognition and data analytics techniques.
 - Analyzes connections obtained through paper-based KYC documents.

Impact:

- Over 40 lakh fraudulent connections were identified and over 36 lakh were disconnected using the portal.
- Provides a secure and trustworthy telecommunication experience for users.
- Protects against identity theft, forged KYC, mobile device theft, and banking fraud.
- Enhances user safety and supports the draft Telecom bill.

What is Scenario of India's Telecom Sector?

- About:
 - In 2020-2021 the telecom industry contributed 6% to India's Gross Domestic Product (GDP) and is set to grow at a CAGR of 9.4% from 2020 to 2025. India is one of the largest consumers of data globally.
 - The Union Cabinet approved a Rs. 12,195 crore **production-linked incentive (PLI) scheme** for telecom and networking products under the Department of Telecom.
 - Growing demand for skilled workers in 5G-centric technologies: India will need around 22 million skilled workers in areas like <u>IoT</u>, and <u>AI</u> computing **by 2025**.

Recent Developments in the Telecom Sector:

- 5G Rollout:
 - Trials and testing conducted in various cities.
 - Expected global <u>5G</u> subscriptions reach 3.5 billion by 2026.
- BharatNet:
 - Project to provide broadband connectivity to gram panchayats.
 - Over 180,000 Gram panchayats connected with optical fiber.

• Revised implementation strategy with \$7.8 billion outlay to cover all inhabited villages by August 2023.

• Universal Service Obligation Fund (USOF):

- USOF ensures that there is universal non-discriminatory access to quality ICT (Information and Communications Technology) services at economically efficient prices to people in rural and remote areas.
- Statutory fund to extend telecom services to rural areas.
- Supports schemes like BharatNet, mobile connectivity, public Wi-Fi hotspots, etc.
- Draft Indian Telecommunication Bill 2022:
 - The **DoT** released the **draft Indian Telecommunications 2022 Bill** to regulate Internet-based <u>OTT (Over-The-Top)</u> telecom services.
- Telecom Sector Reforms:
 - Rationalization of Adjusted Gross Revenue (AGR) definition.
 - Moratorium on spectrum dues and increased tenure.
 - Spectrum sharing, surrender, and trading allowed.
 - Rationalization of bank guarantees and increased foreign investment limit.
 - Measures to simplify licensing and regulatory compliance.

UPSC Civil Services Examination, Previous Year Question (PYQ)

<u>Prelims</u>

Q. Which of the following is/are the aims/aims of the "Digital India" Plan of the Government of India? (2018)

- 1. Formation of India's own Internet companies like China did.
- 2. Establish a policy framework to encourage overseas multinational corporations that collect Big Data to build their large data centers within our national geographical boundaries.
- 3. Connect many of our villages to the Internet and bring Wi-Fi to many of our schools, public places and major tourist centers.

Select the correct answer using the code given below:

(a) 1 and 2 only
(b) 3 only
(c) 2 and 3 only
(d) 1, 2 and 3

Ans: (b)
