

Reverse Flipping

Reverse flipping has become a trend among Indian startups, especially in the **fintech sector**, as they plan for Initial Public Offers (IPOs) or seek **long-term benefits** in the home market.

Reverse flipping is the process of shifting the domicile of an Indian company back to India
after it had moved its headquarters overseas, usually for tax or regulatory reasons. It is also known
as 're-domiciling'.

he Vision

This strategic move is fuelled by India's flourishing economy, a huge market, promising venture capital, favorable tax structures, robust intellectual property protection, young and educated population and supportive government policies.
