Why in News?

Recently, the **Union Ministry of Rural Development** has come up with penalties for any further delay in completing the flagship rural household scheme — **Pradhan Mantri Awas Yojana (Gramin)**.

Why is the Need for Imposing Penalties?

▪ About:

- The penalty would be levied on the state government. If the sanction of the house is delayed for more than one month from the date of issue of the target, **the State government will be penalised Rs 10 per house** for the first month of delay and Rs 20 per house for each subsequent month of delay.
- Similarly, if the first instalment due to the beneficiary is **delayed for more than seven days** from the date of sanction, then the State governments will have to pay **Rs 10 per house per week of delay**.
- No penalty would be imposed if the central funds are not available with the State.

▪ Need:

- **To Reorient Focus:** Due to [Covid-19](#), there was sluggishness in the implementation of the scheme, therefore by imposing penalties the central government is ensuring that the States pay more attention to the programme.
- **Issues with State Government:** West Bengal, Chhattisgarh and Odisha along Assam are the leading four laggard States who are far behind their targets.
 - Further, the West Bengal government repackaged the scheme as **“Bangla Awas Yojana”** and due to this reason, the central government withheld funds meant for the scheme.

Ans: (b)

- **The National Rural Livelihood Mission (NRLM) is a poverty alleviation project implemented by the Ministry of Rural Development.** This scheme is focused on promoting self-employment and organization of rural poor. The basic idea behind this programme is to organize the poor into SHGs (Self Help Groups) and make them capable for selfemployment.
- Pillars of NRLM:
 - Enhancing and expanding existing livelihood options of the poor,
 - Building skills for the job market outside,
 - Nurturing self-employed and entrepreneurs **Hence, 2 is correct.**
- The Mission neither focuses on setting up a large number of new manufacturing industries, nor agribusiness centres in rural areas. Its objective is not to supply seeds, fertilizers, diesel pump-sets and micro-irrigation equipment. **Hence, 1 and 3 are not correct. Therefore, option (b) is the correct answer.**
