▪ Particularly Vulnerable Tribal Groups (PVTGs):

- **Creation of Primitive Tribal Groups (PTGs):** In 1973, the **Dhebar Commission** created Primitive Tribal Groups (PTGs) as a separate category, which are less developed among the tribal groups.
- In 2006, the Government of India renamed the PTGs as PVTGs.
 - In 1975, the Government of India initiated to identify the most vulnerable tribal groups as a separate category called PVTGs and declared 52 such groups. In 1993 an additional 23 groups were added to the category, making it a total of **75 PVTGs out of 705 Scheduled Tribes**.

- **Characteristics of PVTGs:** The Government classifies PVTGs on their:
 - Relative physical isolation,
 - Stagnant or declining population,
 - Low levels of literacy,
 - Absence of written language,
 - Pre-agricultural stage of economy, such as hunting, food gathering, [shifting cultivation](#) and terrace cultivation.
- **Schemes for PVTGs:** PVTGs are more vulnerable among the tribal groups. Due to this factor, more developed and assertive tribal groups take a major chunk of the tribal

development funds because of which PVTGs need more funds directed for their development.

- The Ministry of Tribal Affairs has implemented the scheme of “**Development of PVTGs**” which covers 75 Particularly Vulnerable Tribal Groups (PVTGs) for their comprehensive socio-economic development.
