

## **World Fisheries Day**

## Why in News

The World Fisheries Day is observed on the **21**st **November** every year.

 On the occasion of the World Fisheries Day, for the first time in the Fisheries Sector, the Government of India will award best performing States.

## **Key Points**

- World Fisheries Day is celebrated to demonstrate solidarity with all fisherfolk, fish farmers and concerned stakeholders throughout the world.
  - It was started in the year 1997 when "World Forum of Fish Harvesters & Fish Workers" met at New Delhi leading to formation of "World Fisheries Forum" with representatives from 18 countries and signed a declaration advocating for a global mandate of sustainable fishing practices and policies.
  - **Aim:** To draw attention to overfishing, habitat destruction and other serious threats to the sustainability of marine and inland resources.
- Importance of Fisheries Sector:
  - Around 30 million to over 60 million people in the developing world are involved in inland fisheries; it is thought that about 50% are women.
  - Around 65% of fish caught from inland fisheries are from low-income food deficit countries.
  - More than 25% of world dietary protein is provided by the fish.
- Importance of Fisheries for India:
  - India is the second major producer of fish through aquaculture in the world.
  - India is the 4<sup>th</sup> largest exporter of fish in the world as it contributes 7.7% to the global fish production.
  - Fish constituted about **10%** of total exports from India and almost **20%** of agriculture exports in 2017-18.
  - The fisheries and aquaculture production contribute around 1% to India's GDP and over 5% to the agricultural GDP.
  - Around **28 million people** are employed in the fisheries sector in India.
  - The sector has immense potential to more than double the fishers and fish farmers' incomes, as envisioned by the government.
- Challenges for Fisheries sector:
  - The <u>Food and Agriculture Organization (FAO)</u> points out that nearly 90% of the global marine fish stocks have either been **fully exploited or overfished or depleted** to the extent that recovery may not be biologically possible.
  - Discharge of **harmful substances** like plastics and other waste into water bodies that cause devastating consequences for aquatic life.
  - Changing climate.
- Indian Government's Effort to Improve Fisheries:

- Establishment of **Fisheries and Aquaculture Infrastructure Development Fund (FIDF)** during 2018-19.
- Pradhan Mantri Matsya Sampada Yojana: The programme aims to achieve 22 million tonnes of fish production by 2024-25. Also, it is expected to create employment opportunities for 55 lakh people.
- Focus on <u>Blue Revolution</u>: Focuses on creating an enabling environment for integrated and holistic development and management of fisheries for the socio-economic development of the fishers and fish farmers.
- Extension of <u>Kisan Credit Card (KCC)</u> facilities to fishers and fish farmers to help them in meeting their working capital needs.
