

Light Machine Guns (LMG)

Why in News

 Recently, the Ministry of Defence (MoD) signed a contract with the Israeli Weapon Industries (IWI) for procuring Light Machine Guns (LMG).

Key Points

- LMG is designed to be employed by an individual soldier, with or without an assistant, as an infantry support weapon.
- It is often called the squad automatic weapon.
- Some examples of LMG:
 - Negev 7.62X51 mm Israeli LMG
 - SIG-716 assault rifles- American LMG
 - AK-203 assault rifles -Russian LMG
