## **Key Points**

- About:
  - It is a **special initiative of the UN Secretary-General** and the **UN Global Compact**, implemented in partnership with the **Pacific Institute**. It was **established in 2007**.
  - It aims to demonstrate commitment and efforts of companies to better their water and sanitation agendas as part of long term <u>Sustainable Development Goals</u>.
  - It is a global commitment platform for corporate water stewardship. Water stewardship is the use of water in ways that are socially equitable, environmentally sustainable, and economically beneficial.
  - It has **six commitment areas:** 
    - Direct operations (i.e. Measuring and Reducing water use).
    - Supply chain and watershed management.
    - Collective action.
    - Public policy.
    - Community engagement.
    - Transparency.
- UN Global Compact:
  - The United Nations Global Compact is a non-binding United Nations pact to encourage businesses worldwide to adopt sustainable and socially responsible policies, and to report on their implementation.
  - It is a principle-based framework for businesses, stating ten principles in the areas of human rights, labor, the environment and anti-corruption.
  - Under the Global Compact, companies are brought together with UN agencies, labor groups and civil society. Cities can join the Global Compact through the Cities Programme.
  - India is also a part of the UN Global Compact.
- Other Initiatives which make companies a part of Environmental Conservation:
  - Industrial Deep Decarbonization Initiative (IDDI):
    - It is a global coalition of public and private organisations who are working to stimulate demand for low carbon industrial materials.
    - Coordinated by UNIDO (United Nations Development Industrial organisation), the IDDI is co-led by the UK and India.
  - Race to Zero Campaign:

 Race to Zero is the UN-backed global campaign rallying non-state actors – including companies, cities, regions, financial and educational institutions – to take rigorous and immediate action to halve global emissions by 2030 and deliver a healthier, fairer, zero-carbon world in time.
