This is a unique find as generally Harappan writing has been found on small objects such as seals.
- Being the 6th largest of more than 1,000 Harappan sites discovered so far, and occupied for over 1,500 years, Dholavira not only witnesses the entire trajectory of the rise and fall of this early civilization of humankind, but also demonstrates its multifaceted achievements in terms of **urban planning, construction techniques, water management, social governance and development, art, manufacturing, trading, and belief system.**
