

Countervailing Duties on Four Indian Products

[Source: TH](#)

Why in News?

The **United States and the European Union** have now imposed [countervailing duties \(CVDs\)](#) on four Indian products, as a retaliation against the [Remission of Duties and Taxes on Export Products \(RoDTEP\) scheme](#) introduced for outbound shipments in January 2021.

- Countervailing investigations concluded with CVD determinations for items like **paper file folders, common alloy aluminum sheet, and forged steel fluid end blocks by the U.S.**, while **specific graphite electrode systems were investigated by the European Commission.**

What is Countervailing Duty?

- **Countervailing Duty: CVD** are tariffs levied on imported goods to offset subsidies made to producers of these goods in the exporting country.
 - CVDs are **meant to level the playing field between domestic producers of a product and foreign producers of the same product** who can afford to sell it at a lower price because of the subsidy they receive from their government.
 - The [World Trade Organization \(WTO\)](#) permits the **imposition of countervailing duty by its member countries.**
- **WTO's SCM Agreement:** The [WTO's Agreement on Subsidies and Countervailing Measures \(SCM Agreement\)](#) addresses two main aspects: multilateral regulations regarding subsidies and the **use of countervailing measures** against injury from subsidized imports.
 - Multilateral disciplines set rules on subsidy provisions and are enforced through the WTO dispute settlement mechanism.
 - **Countervailing duties are imposed unilaterally by a member** after investigating and satisfying criteria under the SCM Agreement.
- **Defining Subsidies:** "[Subsidy](#)" is defined in the SCM Agreement as a **financial contribution by a government** conferring a benefit. Specificity determines whether a subsidy applies to a particular enterprise, industry, or region.
 - **Subsidies are categorized as prohibited (e.g., export subsidies, local content subsidies) and actionable (subject to challenge or countervailing measures).**
 - Actionable subsidies can cause injury, prejudice, or nullification of benefits.
 - However, transition rules **provide exemptions or extended periods for developing countries and those transitioning to market economies** to phase out certain subsidies.

Who Imposes Countervailing Measures in India?

- **Directorate General of Trade Remedies (DGTR)** under Ministry of Commerce & Industry, is the single national authority for administering all trade remedial measures including **anti-dumping, countervailing duties and safeguard measures.**
 - The Directorate General of Anti-Dumping & Allied Duties (DGAD) which was formed in 1997 has been restructured as DGTR in May 2018 by restructuring and re-designing DGAD into

DGTR by incorporating all the trade remedial functions i.e. **Anti-Dumping Duty (ADD), Countervailing Duty, Safeguards Duty (SGD), Safeguards Measures (QRs)** under a single window framework.

- It is a quasi-judicial body that **independently undertakes investigations before making its recommendations** to the Central Government.

What is the RoDTEP Scheme?

- The **RoDTEP (Remission of Duties or Taxes on Export Products)** Scheme aims to offset taxes and duties incurred on exported goods that are not refunded otherwise, ensuring competitiveness in global markets.
- This scheme provides rebates on hidden Central, State, and Local duties that were not refunded under other schemes, **encompassing both direct and prior-stage indirect taxes.**

UPSC Civil Services Examination, Previous Year Question:

Prelims

Q. With reference to the international trade of India at present, which of the following statements is/are correct? (2020)

1. India's merchandise exports are less than its merchandise imports.
2. India's imports of iron and steel, chemicals, fertilizers and machinery have decreased in recent years.
