

ADEETIE Scheme to Boost Industrial Energy Efficiency

Source: [PIB](#)

The Union Ministry of Power in collaboration with the [Bureau of Energy Efficiency \(BEE\)](#) has launched the **Assistance in Deploying Energy Efficient Technologies in Industries & Establishments (ADEETIE)** scheme.

ADEETIE Scheme:

- **Objective:** It aims to accelerate the adoption of advanced **energy-efficient technologies across India's [Micro, Small, and Medium Enterprises \(MSME\)](#) sector**.
 - It can help MSMEs reduce energy consumption by **30-50%, improve efficiency, and contribute to green energy corridors**.
 - It will be **implemented for three years** (FY 2025-26 to FY 2027-28) and will also cover **14 energy-intensive sectors**, including chemicals, food processing, textiles, and steel re-rolling.
- **Key Features:** MSMEs can avail **5% interest subvention for Micro & Small Enterprises** and **3% for Medium Enterprises** on loans for adopting energy-efficient technologies.
 - The scheme is **structured to provide end-to-end hand holding through** subvention on loans, Investment Grade Energy Audits (IGEA), Detailed Project Reports (DPRs), and post-implementation Monitoring and Verification (M&V).
 - ADEETIE portal was **launched to facilitate the financing process** for the beneficiaries

Bureau of Energy Efficiency (BEE):

- It was established in **March 2002** under the provisions of the [Energy Conservation Act, 2001](#).
- The mission is to develop policies and strategies based on self-regulation and market principles, **aiming to reduce the energy intensity of the Indian economy**.
