

# **Revival of Mandal Dam Project**

## Why in News?

The Jharkhand government has **approved the relocation of seven villages** situated in the submergence zone of the **Mandal Dam in the <u>Palamu Tiger Reserve (PTR)</u>**.

# **Key Points**

- About the Mandal Dam Project: The Mandal Dam is located in the PTR covering parts of Garhwa, Latehar, and Palamu districts in Jharkhand on the North Koel River, a tributary of the Sone River.
  - The project was originally conceived decades ago but has remained nonfunctional due to local opposition and lack of consensus on rehabilitation and environmental concerns.
    - A task force was also set up in 2015 to speed up the clearances.
  - The project gained momentum when the Prime Minister laid its foundation stone in January 2019.
  - PTR will benefit from the project as the vacated land will be submerged, forming a large water body that can help reduce the persistent problem of <u>human-animal conflict</u> in the districts.
- Relocation of Villages: Seven villages, including Kutku, Bhajna, Khura, Khaira, Saneya, Chemo, and Meral, will be relocated.
  - Each household will get one acre of land and Rs 15 lakh as compensation.
  - The relocated area will be developed as a model cluster to provide better living conditions for the villagers.

## Palamu Tiger Reserve (PTR)

- PTR is located on the **Chhotanagpur plateau** in western Latehar district, Jharkhand.
  - <u>'Betla National Park'</u> is situated within 226.32 sq km of the Palamu Tiger Reserve, which is spread over a total area of 1,129.93 sq km.
- The project area is constituted mainly of Sal forests, mixed deciduous forests and bamboo groves.
- The reserve zone is the watershed area for 3 important rivers Koel, Burha and Auranga.
- It was constituted in 1974 under **Project Tiger** and is one of the first nine tiger reserves established in the country at the inception of the project.
  - It was the first sanctuary in the world to conduct a <u>tiger census</u> using pugmark counts, done in 1932.
- The keystone species include <u>Tigers</u>, <u>Elephants</u>, <u>Leopards</u>, <u>Grey Wolf</u>, <u>Gaur</u>, <u>Sloth Bear</u>, Four-horned Antelope, Indian Ratel, Indian Otter and <u>Indian Pangolin</u>.
