

Obscenity Laws in India

[Source: IE](#)

Why in News?

A YouTube influencer is under investigation for allegedly making **obscene comments** during a widely viewed show. A complaint has been filed under **Section 296 of the [Bharatiya Nyaya Sanhita, 2023 \(BNS\)](#)** for "obscene acts".

- This raises questions about the **legal definition of obscenity**, particularly in the digital age.

What are the Laws Governing Obscenity?

- **Section 294 of BNS 2023: Formerly [Indian Penal Code \(IPC\) Section 292](#)**, it prohibits the sale, advertisement, or public display of obscene content, including digital media.
 - Defines obscenity as material that is **sexually suggestive, meant to provoke sexual thoughts, or likely to harm people's morals or behavior**.
 - First-time offenders face up to **2 years in jail and a ₹5,000 fine**. Repeat offenders may get **up to 5 years** and a **Rs 10,000 fine**.
- **Section 296 of the BNS:** It penalizes performing **obscene acts in public**, as well as singing, reciting, or uttering obscene songs, ballads, or words in public or doing so to the annoyance of others.
 - By regulating public behavior that could offend **public morality or decency**, this section aims to uphold societal norms.
- **Section 67 of the Information Technology Act, 2000:** Punishes publishing or transmitting obscene material electronically.
 - The definition of obscene material is identical to that provided under **Section 294 of the BNS**.
 - Provides **harsher penalties** than BNS with **up to 3 years of imprisonment** and a fine of **Rs 5 lakh** for first-time offences.
- **Indecent Representation of Women (Prohibition) Act, 1986:** Prohibits **[indecent depiction of women](#)** that is derogatory, denigrating, or harms public morality.
- **POCSO Act, 2012 (Protection of Children from Sexual Offences Act):** Prohibits creating, storing, sharing, or accessing child sexual content online, with strict penalties for offenders.

How Do Courts Determine What is 'Obscene'?

- **Hicklin Test:** In *Ranjit D Udeshi v. State of Maharashtra, 1964* the **Supreme Court of India** used the **Hicklin Test**, which was **adopted by the British in the case *Queen v. Hicklin, 1868***.
 - This test determined that material is **obscene** if it has the **tendency to deprave and corrupt** those people whose minds are **open to such immoral influences**.
 - The **lowest common denominator standard** was applied, meaning content was judged based on its impact on **children or vulnerable adults**, not the average person.
 - **Criticism:** Considered **outdated and overly restrictive**. The test focused on **isolated**

parts of content rather than the work as a whole.

- **Community Standards Test:** In *Aveek Sarkar v. State of West Bengal, 2014* the Indian Supreme Court replaced the **Hicklin Test** with the “community standards” test (CST) to determine obscenity.
 - Courts now judge obscenity based on **contemporary societal norms**. They assess whether the overall theme of the content, taken **as a whole**, appeals to **prurient interests** (i.e., sexually arousing content without artistic, literary, or social value).
 - Courts strive to **balance fundamental rights** ([Article 19\(1\)\(a\) Free Speech](#)) with **reasonable restrictions** ([Article 19\(2\)](#)).
 - **Judicial Precedents:** *Boris Becker Nude Photo Case, 2014* the SC ruled that **nudity alone is not obscene** if it has **artistic or social merit**.
 - Courts take into account whether the work serves a literary, artistic, political, or scientific purpose before determining its obscenity.
 - In the 2024 College Romance Web Series case, the SC ruled that vulgar language isn't obscene unless it arouses sexual thoughts.
 - **Shortcomings:** CST is **subjective and varies by region** (based on geography, culture, and social norms), leading to inconsistent judgments. It struggles to keep up with **evolving social norms and lacks clear definitions**, causing ambiguity in legal interpretations.

Public Morality, Decency and Freedom of Expression

- **Morality:** It is the set of principles that define right and wrong behavior based on societal, cultural, or personal beliefs about ethics and justice.
 - In [Navtej Singh Johar vs. Union of India, 2018](#) the Supreme Court held that constitutional morality takes precedence over public morality, emphasizing justice over social norms.
- **Decency:** Avoids obscene language and gestures (*B. Manmohan And Ors. vs State Of Mysore And Ors, 1965*).
- **Freedom of Expression and Obscenity:** Freedom of expression under [Article 19\(1\)\(a\)](#) of the Indian Constitution is subject to reasonable restrictions under **Article 19(2)**, including to **prevent obscenity and uphold societal morality**.
