

## SabhaSaar AI Tool

[Source: IE](#)

The **Union Ministry of Panchayati Raj (MoPR)** launched **SabhaSaar AI tool** that **auto-generates Minutes of Meeting** from **Gram Sabha videos and audio recordings**.

- **Integrated with Bhashini platform**, it provides **multilingual transcription and translation** in **13 Indian languages** including **Hindi & English**. It was first rolled out in **Tripura**.
  - [Bhashini \(BHASHa Interface for India\)](#) (MeitY, 2022), is an **AI-powered language translation platform** developed under the [National Language Translation Mission](#).

### Gram Sabha & Gram Panchayats:

- The **Gram Sabha** is the **village's legislative body** and a platform for direct democracy. It comprises **all registered voters of a village** and holds the **Gram Panchayat accountable**.
  - Its main functions include **approving budgets, reviewing reports**, and ensuring the **transparency and social auditing of village development schemes**.
- The **Gram Panchayat** is the **executive body of the Gram Sabha**. It is an **elected council of members (Panchs)** with a **head (Sarpanch)**, responsible for **village administration for a 5-year term**.
- **Other Key Initiatives Related to Gram Panchayats:**
  - [Panchayat NIRNAY](#): Real-time monitoring portal for regular & transparent Gram Sabha meetings.
  - [eGramSwaraj](#): Portal for planning, finances, reporting, and asset tracking.
  - [AuditOnline](#): Digital audits of Panchayat accounts.
  - [Common Service Centers \(CSC\)s](#): Deliver digital, citizen-centric services in rural areas.
  - [Rashtriya Gram Swaraj Abhiyan \(RGSA\)](#): Focuses on **strengthening the governance capabilities** of [Panchayati Raj Institutions](#)
  - [Gram Manchitra](#): A **GIS-based tool** that enables Panchayats to visualize and map village assets and infrastructure for data-driven planning and efficient resource allocation.
  - [SVAMITVA Scheme](#): Provides **legal ownership (property cards)** to rural **landholders** by using **drone surveys**.
