## UP Cabinet Clears Electronics Parts Manufacturing Policy | Uttar Pradesh | 03 Sep 2025

### Why in News?

In a major step to elevate **Uttar Pradesh** as a global electronics manufacturing hub, the **state cabinet** has approved the Uttar Pradesh Electronics Component Manufacturing Policy-2025 (**UP ECMP-2025**).

### Key Features of UP ECMP-2025

- **About:** The policy aligns with the central [Electronics Component Manufacturing Scheme \(ECMS\)](#), with an investment target of **Rs 5,000 crore** and the creation of **lakhs of jobs**.
- **Objective:** The policy aims to promote the production of **11 key electronic components**, including displays, camera modules, and multilayer **Printed Circuit Board (PCBs)**.
  - With an estimated **investment of Rs 5,000 crore**, it is expected to generate both direct and indirect job opportunities, making UP a preferred investment destination.
- **Governance Framework:** A nodal agency, supported by a policy implementation unit and an empowered committee, will oversee the policy's implementation, ensuring efficient governance and smooth execution of initiatives.
- **Timeline:** The policy will be effective retrospectively from 1st April 2025, with investments made from this date eligible for policy benefits, extending for six years.
- **Incentives:** Entrepreneurs will benefit from state-level incentives in addition to central benefits under the ECMS, helping strengthen [UP's electronics supply chain](#) and fostering a self-sustaining ecosystem.
- **Significance:** The policy will foster innovation in electronics manufacturing and **reduce India's import dependency**, aligning with the government's vision to strengthen the domestic electronics component sector.

## UP Approves Export Promotion Policy 2025-30 | Uttar Pradesh | 03 Sep 2025

### Why in News?

The **Uttar Pradesh Cabinet** has approved the new **Export Promotion Policy for 2025-30**, which is designed to address the challenges faced by exporters and encourage growth in various sectors.

### Key Features of the Policy

- **Objective:** The Export Promotion Policy 2025-30 aims to create a robust export ecosystem in Uttar Pradesh, supporting both new and established exporters, with a **goal to double the state's**

exports by 2030.

- **Sectoral Focus:** The policy **prioritizes key sectors** such as [electronics](#), handicrafts, engineering products, [textiles](#), agricultural products, [chemical and pharmaceutical industries](#), leather goods, sports equipment, glass, ceramics, and service sectors like IT, education, medical, tourism, and logistics.
- **One District One Product (ODOP) Focus:** The policy emphasizes boosting exports of [ODOP items](#), aligning with the state's focus on promoting indigenous products.
- **Incentives:** The policy will provide special incentives to new exporters and startups, including the following provisions:
  - **Financial Assistance:** Up to ₹1 lakh for digital marketing and product cataloguing.
  - **Virtual Fairs:** Up to ₹25,000 for organizing virtual exhibitions.
  - **Export Certification:** Coverage of 75% or up to ₹25 lakh for **international product certifications**.
  - **Performance-Based Incentives:** Exporters will benefit from export performance-based incentives, including grants for export credit insurance assistance and [ECGC coverage expenses](#), aimed at enhancing export performance.

## India's 1st Tempered Glass Manufacturing Facility in Noida | Uttar Pradesh | 03 Sep 2025

### Why in News?

Union Minister of Electronics and Information Technology, Shri Ashwini Vaishnaw, inaugurated **India's first Tempered Glass Manufacturing Facility** for mobile devices in **Noida**, Uttar Pradesh.

### Key Points

- **About:** It will produce high-quality tempered glass under the globally recognized brand "Engineered by Corning" in collaboration with Optimus Electronics (an Indian telecommunications and manufacturing enterprise) and Corning Incorporated, USA.
- **Demand:** The facility will meet the growing demand for tempered glass, a key mobile phone accessory, serving both domestic and international markets.
  - India's domestic market for tempered glass is estimated to exceed 500 million units, with a retail value of approximately ₹20,000 crore, while the global market stands at over USD 60 billion.
- **Investment:** **Phase 1** of the Noida facility, with an investment of ₹70 crore, will have a capacity of 25 million units per annum, generating direct employment for over 600 people.
  - **Phase 2**, which will scale up capacity to 200 million units per annum, will involve an additional investment of ₹800 crore and create over 4,500 direct job opportunities.
- **Significance:** Over the past 11 years, [India's electronics production](#) has reached ₹11.5 lakh crore, with ₹3 lakh crore in exports and 2.5 million jobs created, marking a significant step in strengthening the sector and advancing the [Make-in-India initiative](#).
