Project ISHAN

India has started the process of consolidating its 4 airspace regions into a single entity spanning the entire nation under Initiative **Indian Single Sky Harmonized Air Traffic Management (ISHAN).**

- Currently, Indian airspace is divided into **4 Flight Information Regions (FIRs)** in Delhi, Mumbai, Kolkata, and Chennai, each managed separately.
    - Under **ISHAN**, these will be consolidated into one continuous airspace centred in **Nagpur.**
    - It seeks to **streamline and enhance air traffic** management across India.
- The **Airports Authority of India (AAI)**, invited expressions of interest (EoI) for the preparation of a detailed project report.
    - AAI was constituted by an Act of Parliament and came into being on 1st April 1995 by merging erstwhile **National Airports Authority and International Airports Authority of India.**
    - It works under the **Directorate General of Civil Aviation**, Ministry of Civil Aviation, Government of India.
