### Why in News?

**Balochistan** province of Pakistan is witnessing a resurgence of **insurgency and unrest**. The recent **train hijacking** by **Balochistan Liberation Army (BLA)** militants, demanding the release of their comrades, highlights the deteriorating security situation in the region.

## Balochistan and History of Insurgency

- **Geography:** **Balochistan** is Pakistan's southwestern province that borders **Afghanistan, Iran, Punjab and Sindh** (provinces of Pakistan), and the **Arabian Sea**.
- **Demography:** It covers **44% of the country's total land area** but is home to only **5% of its population**, predominantly inhabited by the **Baloch, a Sunni Muslim ethnic group**, who also have significant communities in **Iran and Afghanistan**.
  - It is the **largest and least populated province**, rich in **natural resources** such as **natural gas, coal, gold, and copper**, but remains **highly impoverished**, with 70% of its population classified as multidimensionally poor.
- **History of Insurgency:** At the time of **Partition of India (1947)**, Balochistan comprised 4 princely states: **Kharan, Makaran, Las Bela, and Kalat**, with Kalat opting for **independence** while the others joined Pakistan.
  - Though **Jinnah initially accepted Kalat's sovereignty**, British pressure led to its **forced annexation in 1948** after isolating it strategically. Allegations of the Khan's intent to join India further accelerated Pakistan's actions.
  - Resistance to Pakistani rule **intensified** over the years. The **first major rebellion** broke out in **1954** following Pakistan's **One-Unit policy**, which merged Balochistan with West Pakistan in 1955, **deepening resentment**.
  - In **1958**, Khan of Kalat, **Nawab Nauroz Khan**, declared independence but was tricked into surrendering and imprisoned.
  - A **third rebellion in 1963** sought the **withdrawal of Pakistani troops** and recognition of **Balochistan as a province** (materialised in 1970).
  - Inspired by **Bangladesh's 1971 independence**, Baloch leaders demanded autonomy, but the **Pakistan President dismissed the Balochistan government in 1973**, triggering a **4-year insurgency**.
  - The **fifth wave of conflict** began in the **mid-2000s**, triggered by alleged **military excesses**. The insurgency continues, fueled by grievances over **resource exploitation and political marginalization**, with no resolution in sight.
- **Amnesty International** reports that over **10,000 Baloch have disappeared in Pakistan since 2011**.

# What is Balochistan Liberation Army?

## What it is

- The Balochistan Liberation Army (BLA), **active since 2011**, is the most prominent of the many separatist groups in Pakistan's Balochistan province
- **Majeed Brigade** is the BLA's dedicated suicide squad

## The context

- Balochistan is the country's largest province. It has oil and other natural resources, but the ethnic Baloch are Pakistan's **poorest and most under-represented** people
- Till 1947, Balochistan comprised multiple chiefdoms.
- Ahmed Yar Khan, the chief of Kalat, was the most powerful. He was **forced to accede to Pakistan in 1948**, after Pakistan invaded Kalat
- This triggered an insurgency which remains ongoing due to **'unjust' behavior of Pakistan govt towards Balochs**

## What are the Reasons for Conflict in Balochistan?

- **Historical Grievances:** Balochistan's **forced annexation by Pakistan in 1948** and the **dismissal of its provincial government in 1973** deepened its alienation.
  - The region lacks effective grievance redressal mechanisms, with **Punjabi elites dominating bureaucracy** and **sidelining Baloch representation**.
- **Economic Exploitation:** Despite abundant **natural resources** like **gas, gold, and iron**, Balochistan remains **impoverished**, with locals confined to **low-skilled jobs** due to **poor education and infrastructure**. It has **Pakistan's lowest literacy rate** and **worst Gender Parity Index (GPI)**.
  - The Baloch nationalists view Chinese investments such as **Gwadar Port and CPEC** as benefiting **Pakistan's elite** while **marginalizing locals**, fearing **demographic changes** and further exploitation.
- **Human Rights Violations & Militarization:** Enforced disappearances, **extra-judicial killings**, and **fake encounters** are frequently used as **counter-insurgency tactics**.
  - The **Commission of Inquiry on Enforced Disappearances** constituted by Pakistan in **2011** recorded **2,752 cases**, while civil society groups claim **over 7,000 disappearances (2002-2024)**.
- **Religious Extremism:** Balochistan faces **militant recruitment** by groups like **Al-Qaeda, Tehrik-e-Taliban Pakistan (TTP)**, and **sectarian outfits**, with the **Hazara Shia** community frequently targeted by sectarian violence.
- **Geopolitical Factors:** Pakistan has **alleged foreign support for militancy and separatist tendencies** in Balochistan, citing **instability in Afghanistan** and certain **terror groups from Iran as contributing factors**.

## What is India's Stand on Balochistan Issue?

- **India's Cautious Approach:** India denies involvement in **Balochistan's affairs** and rejects **Pakistan's allegations** of supporting Baloch militants, urging **Pakistan to address its internal issues** instead of blaming others.
- **Diplomatic Stance:** India's stance on Balochistan is shaped by **geopolitical considerations, regional stability**, and its complex ties with Pakistan. **India** continues to **raise the issue of minority rights** and related concerns in Balochistan, **in alignment with its democratic and secular values**.
  - In 2016, the Prime Minister raised **Balochistan's human rights situation** in his **Independence Day speech**.
- **Regional Stability:** The unrest in Balochistan, coupled with **China's CPEC involvement**, poses security challenges in South Asia.
  - India balances its strategic interests while advocating for Baloch rights within international norms.

## Conclusion

The Balochistan issue arises from historical grievances, economic exploitation, and political marginalization. Pakistan's military approach has been ineffective, highlighting the need for political reforms and fair resource distribution. India views the situation strategically, considering its regional security impact.

### **Drishti Mains Question:**

Discuss the historical and geopolitical factors driving the Balochistan insurgency. How does the situation

## UPSC Civil Services Examination, Previous Year Question (PYQ)

### **Prelims**

**Q. What is the importance of developing Chabahar Port by India? (2017)**
