

Maruti Suzuki Plant in Haryana

Why in News?

Maruti Suzuki India announced a **Rs 7,410 crore investment** to establish a **third plant at Kharkhoda in Haryana**, capable of producing up to 2.5 lakh vehicles per year.

Key Points

- **Existing and Upcoming Capacity:**
 - The **current production capacity at Kharkhoda stands at 2.5 lakh units per year.**
 - Another plant, also with a 2.5 lakh units per year capacity, is under construction.
- **Approval for a Third Plant:**
 - On 26th March 2025, Maruti Suzuki's Board approved the establishment of a **third plant at Kharkhoda.**
 - With the third plant, Kharkhoda's total production **capacity is expected to reach 7.5 lakh units per year.**
 - The proposed capacity expansion is scheduled **to be completed by 2029.**
- **Reason for Expansion:**
 - The company cited **growing market demand**, including export opportunities, as the key reason for setting up the third plant.
