

# AI-Powered Holobox of Sardar Vallabhbhai Patel

## Why in News?

The Pradhanmantri Sangrahalaya in Delhi, the **world's only museum of its kind**, unveiled an AI-powered Holobox of [Sardar Vallabhbhai Patel](#) on 17th September 2025.

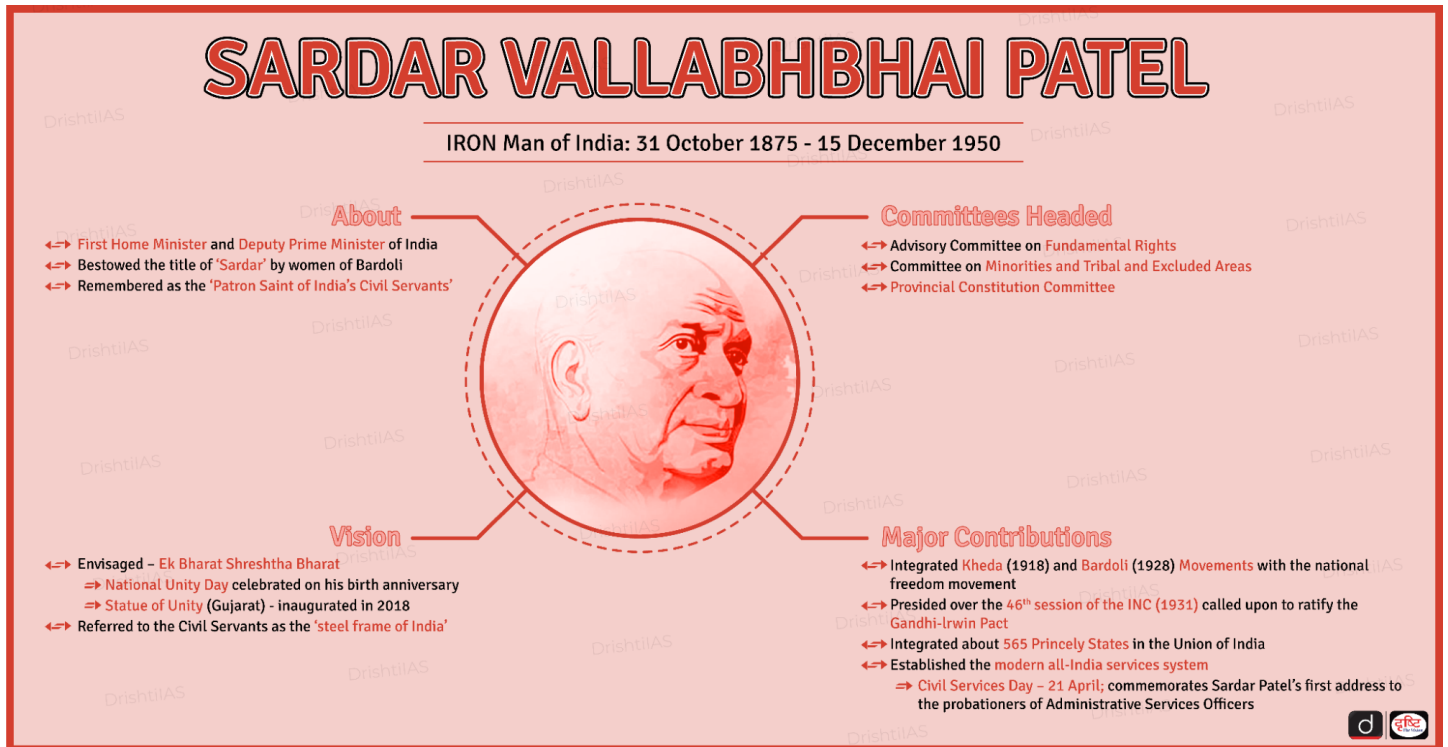

## Key Points

- **About:** Visitors engaged with an **AI-powered Holobox 3D avatar**, asking questions about Patel's life and significant contributions to India's history.
  - The avatar **responded in Patel's tone**, drawing from his speeches, books, and archival materials, offering an authentic educational experience.
  - The responses provided by the avatar maintained authenticity, reflecting **Patel's philosophies** and major life events.
- **Objective:** This initiative is aimed at setting a **global standard** for integrating technology into historical engagement, especially to **attract younger generations** and make history more accessible.
- **Future Expansions:** Following the success of Patel's AI avatar, the **Pradhanmantri Sangrahalaya** is planning to introduce a **life-size Holobox** for [Dr. A.P.J. Abdul Kalam](#), deepening the initiative's commitment to inspiring future generations with the wisdom of India's great leaders.
- **Historical Significance:** **17th September** holds dual importance; it marked the **success of Operation Polo** in 1948, when **Hyderabad** was integrated into India under the leadership of **Sardar Patel**.

- It also marks the **birth anniversary of Prime Minister Narendra Modi**, born on this day in 1950, whose vision of 'Ek Bharat, Shreshtha Bharat' reflects Patel's legacy of national unity.

**Note: AI-Powered Holobox** is a cutting-edge technology that **merges artificial intelligence (AI) with holographic displays** to create interactive, **lifelike 3D images** and avatars that users can **engage with naturally** through voice commands, gestures, and even emotional cues.
