

## Global Antimicrobial Resistance Research and Development Hub

 [drishtiias.com/printpdf/global-antimicrobial-resistance-research-and-development-hub](https://drishtiias.com/printpdf/global-antimicrobial-resistance-research-and-development-hub)

Recently, India has joined the **Global Antimicrobial Resistance (AMR) Research and Development (R&D) Hub** as a new member.

- Working with AMR(R&D) Hub would help India to expand existing capabilities, resources and collectively focus on new R&D intervention to address drug-resistant infections present in the country.
- **Global Antimicrobial Resistance (AMR) Research and Development (R&D) Hub** is a collaboration of 16 countries, the European Commission, two philanthropic foundations and four international organizations (as observers).
- It was launched in **2018** during the **71<sup>st</sup> session of the World Health Assembly**, following a call from **G20 Leaders in 2017**.
- It is supported through a **Secretariat**, established in **Berlin, Germany**.
- It aims to further improve the coordination of international efforts and initiatives to tackle **Antimicrobial Resistance** while further increasing investments into R&D for AMR.
- The work of the Global AMR R&D Hub will be aligned to the priorities set by
- It enforces the **One Health Approach** by including environmental aspects and veterinary medicine against antimicrobial resistance.
- It integrates **human and animal health, worldwide food safety and environmental factors**.
